Features

- 17 **Ciara's Journey**
Irish schoolgirl space blogger talks to **Ann Dunne**
- 30 **Naked Eye 'Christmas Comet' Wirtanen**
It's extremely rare to have a comet bright enough to be seen with the naked eye but this periodic comet comes exceptionally close to Earth this month and, what's more, it's ideally placed for viewing high in the sky from Ireland. Star map and full viewing guide by **David Moore**
- 34 **Goresat**
Ted Alston on the Deep Space Climate Observatory
- 42 **Christmas Book Choice**
My top five picks by **Ann Dunne**

Regulars

NASA celebrating 60 years by **John Hackett**
- 40 **Observer's Log**
Fireballs, meteors, Moon shots, Milky Way and images from the ISS sent by you. Compiled by **Natasha Metcalfe and Ann Dunne**
- 44 **Reader's Gallery**
Newly discovered comet from Ireland and beautiful Milky Way shots

Sky Diary

- 22 A ridiculously packed month: Mars almost passes in front of Neptune. Full guide to viewing Naked Eye 'Christmas Comet Wirtanen' from Ireland. Geminids peak in Moon-free sky giving best meteor shower of year. Mercury puts on its best morning show of 2018. Venus and Mars well placed. There's even a Supermoon.
Compiled by **David Moore**.
